

HANDYMAN

using technical skills to meet practical needs

REQUIREMENTS

- Faith-based approach to meeting people's needs
- Technical skills experience (*see back for project types*)
- Ability to use personal tools
- Commit to volunteering 8-10 hours monthly (*based on ministry need and volunteer availability*)
- Semi-flexible schedule
- Team player

GETTING STARTED

- Contact **Kind at Heart** to get the conversation started:

 (479) 373-6281

 servant@kindatheart.org

- Meet the team and see how your skills can be put to use
- Complete a background check and finalize the application process

The NEED

Too many of our local seniors - particularly those 70 and older - rely on a fixed income to survive.

Unfortunately, financial decisions become a **wrestling match between "living" and "living well."** In other words, a hot meal ALWAYS wins over calling a plumber to fix a leaky toilet (that could lead to eventual water damage). And a month's prescription medication ALWAYS wins over calling a contractor to rethink steps that have become a trip hazard over time (and could lead to a fall and serious injury).

The RESPONSE

Kind at Heart provides qualified clients with home repairs and maintenance support, resulting in **170 home-related projects per year** aimed at improving quality of life.

Without the help of skilled volunteers, however, we are unable to provide these services to our clients at little to no cost.

We need you to ensure our clients can LIVE WELL! Would you consider joining our handyman team and using your technical skills to bring encouragement to a local senior in need? When you do, you become part of the mission of "loving your neighbor," one project at a time.

PROJECT TYPES

We take the guess work out of the job by making sure you know the scope of the project and materials needed before you ever step foot in a client's home.

Carpentry

- Build wheelchair ramps
- Build steps
- Install handrails on steps
- Widen/install doors
- General light carpentry
