THE DRIVE

TO CHANGE THE OUTCOME

When individuals face health-related needs that may impact their independence - whether due to age and/or disability - we have a responsibility to act. **Our organization's goal is to help people live at home as long as possible** by making homes safe and accessible, providing resources that support quality of life, and mobilizing our community to serve their "neighbors" needs.

As the risk of fall-related injuries increases with age, and as **the aging population in the U.S. is on the verge of doubling**, the time to act is NOW!

We must **ALL** do our best to preserve one another's dignity and independence. We owe it to our neighbors, ourselves, and our Creator.

Josh

We were being faced with the option of me not being able to come home . . .to be able to come home is amazing. Independence is what makes you feel human. To have people that care enough to help other people in this day and age shows the love of God.

Billie

"I couldn't afford to hire all the things that you do for me. You built a ramp that is wonderful. It just saved my life."
