RAMPS TO THE
HEART

We provide services that bring hope, encouragement, and support in daily living.

When individuals face health-related needs that may impact their independence—whether due to age and/or physical disability—we have an incredible opportunity to shine a light into their situation. With 10 years of ministry under our belt, we have found that the best way to do this is by helping people live at home as long as possible, providing resources that support quality of life, and mobilizing our community to serve their neighbors.

This work is not our own! As the number of aging people in America continues to increase, we must all rise to the occasion. That is why we continue to work hard to be a catalyst and avenue through which local churches, businesses, and individuals can serve their neighbors' in tangible and meaningful ways. Together, with arms linked, we can continue to meet increasing needs with the type of love and support that never runs out!

HOME MODIFICATION

We help individuals stay at home as long as possible by ensuring their home meets their needs. Through home modification and education, we are reducing the risk for falls and supporting a better quality of life.
